

Announcement

Open position for an experienced researcher within the project "Dynamics and differentiable ergodic theory", PN-III-P4-ID-PCE-2016-0823, project director Prof Dr. Eugen Mihailescu.

Short description of the position:

Research activity in the field of the project, namely dynamical systems, ergodic theory, fractal geometry, and applications. The successful candidate will be at least at a postdoctoral level, and should have experience in one or more of the above fields.

The period of employment is from the date when a suitable candidate is found until 31 December 2019.

The candidates should send to the Institute of Mathematics of the Romanian Academy, and by email to Eugen.Mihailescu@imar.ro, a CV, letter of intent, and photocopies of diplomas and grades, until 30 August 2017.
