

EXPERIENCED RESEARCHER

One open position for an experienced researcher to be involved in the project “Special geometries and related structures” PN-III-P4-ID-PCE-2016-0019 (project coordinator Liana David) at the Institute of Mathematics Simion Stoilow of the Romanian Academy in Bucharest. The position is available when a suitably qualified candidate is found and last until December 31, 2019.

Requirements:

The candidate should bring his expertise to the project in one (or more) of the followings areas: Riemannian geometry, quaternionic geometry, generalized complex geometry, harmonic maps, singular spaces.

The interested candidates should send via email to liana.david@imar.ro their CV, and publication list.

Deadline for application: September 1st, 2017.
